### ACHIEVEMENTS

- Performer of the Month award June 2022 - as a result of my efforts on numerous projects and my strong communication ability.

### PROFILE

Dynamic professional with 6+ years of experience evolving from a blockchain and MERN stack developer to a Project Manager , Scrum Master. Proficient in Agile methodologies and project management tools, ensuring efficient project delivery and fostering seamless team collaboration. Renowned for exceptional leadership, communication, and team-building skills, creating positive and productive work environments. Ready to leverage a blend of technical expertise and strategic management capabilities to deliver impactful and results-driven project outcomes.

### WORK EXPERIENCE

#### ExcellentWeb World

##### Project Manager Nov 2023 - Present

As a Project Manager, I was responsible for managing multiple projects simultaneously, ensuring all client needs and requirements were effectively captured and addressed. I oversaw the entire project lifecycle—from initiation to final handover—while maintaining strict adherence to project plans and timelines. My responsibilities included conducting regular scrum meetings, facilitating sprint planning sessions, and ensuring seamless coordination between cross-functional teams to deliver high-quality outcomes.

#### Openxcell Technolabs

##### Sr Software Developer & Tech Lead Jan 2019 - Nov 2023

As a Developer, I have successfully led multiple projects, specialising in Blockchain, Node.js, and React.js. My responsibilities included not only hands-on development but also managing client communications and leading cross-functional teams to deliver high-quality solutions.

### TOP PROJECTS

#### Game Website

A dynamic web-based gaming platform designed as a multi-game online quiz application. Players can participate in engaging question-and-answer challenges across various categories.

#### DAC

This project aims to develop a 100% online platform that will help customers buy and sell cars from DAC, while also making it easier for DAC owners and staff to manage their leads and sales cycle.

#### LMS - LEARNING PLATFORM

Aims to design, develop & deliver a comprehensive solution tailored for students to learn courses, complete assignments, and appear for assessments through the platform.

#### Smart Helmet - IOT

The Smart Helmet is an IoT-based innovation designed to safeguard workers from health-related risks in industrial and hazardous environments. It even monitors critical health parameters
